## EDUCATION

The University of Texas at Austin, Austin, TX  
2019

Expected Graduation-May

Bachelor of Science and Arts in Computer Science  
Business Foundations Certificate

---

## RELEVANT COURSEWORK

- Principles of Computer Systems (Operating Systems), Computer Security, System Architecture, Data Structures

---

## AWARDS

- Aspire Award: Dean's Choice Resilience Award** - Spring 2018
  - First ever recipient of the award, given for inspiring others through my resilience demonstrated by my personal story and community engagement

---

## WORK EXPERIENCE

- Pandora Media** (Summer 2018 Intern as a Code2040 Fellow) - Working in tandem with one other intern, developed a web platform to provide 3rd party developers testing tools, api documentation, licenses etc. Features I personally developed:
  - Multi-level Authentication and Authorization for different partner roles using a custom configuration of **Spring Security** and **Java**
  - Content and UI loaded per partner role with **React/Redux**
  - Integrated a RESTful API into an existing database structure with **SpringData** framework
  - Migration of some older tools to the new platform

---

## PROJECTS

- [Divday.org](https://divday.org) - Created a single page application for <DIV> Day with **Bootstrap, CSS, and Javascript**
- [Automated Player Ranking](#) - Used **Python3** and the **Riot API** to automate process of looking up individual player skill ranks and ordering them for the top UT Austin League of Legends players
- [HACS Website](#) - Created an organization's website for the Hispanic Association of Computer Scientist using **HTML/CSS** and **Javascript** along with MaterializeCSS framework
- [Live Website Preview](#) - Created a website with optional panels for live preview of CSS, HTML, and JS using **Javascript/Jquery, HTML and CSS**

---

## SKILLS

### Languages and technologies:

- Proficient in **Java, C, and Git, and Javascript**
- Experience in **Python3, PHP, MySQL**
- Experience with frameworks including: **Spring, Spring Security, Bootstrap, React, and Redux**

---

## LEADERSHIP & COMMUNITY INVOLVEMENT

- Hispanic Association of Computer Scientists** - **Finance, Website, and Academic** Officer. Created and managed the budget, created the website for the organization, and organized and lead study sessions for our members
- Collegiate Gaming Team Captain** – Lead team to first place at UT two seasons in a row
- UTCS Outreach** - Assisting with various outreach programs by the UTCS department including Girl's Day Engineering and Hour of Code
